## Knowledge is POWER: Providing learning and empowering opportunities for young adults with special educational needs (SEN)

The "PowerUP!" project is an innovative initiative designed to empower young adults with special educational needs by enhancing their digital and entrepreneurial skills.

Through a series of high-quality entrepreneurial-focused resources and training modules, freely accessible and tailored to the learning needs of young adults with SEN, "PowerUP!" seeks to equip participants with the necessary skills to navigate and succeed in today's digital landscape, fostering inclusion, and opening up new opportunities for personal and professional growth.

The project partners have organised dissemination events and have made the website available in all partner languages. They have also finalised the Small-Scale Data Review and Analysis Report (A1) and the Needs Identification and Module Design (A2) Report. The partners are now working on the microlearning modules and scripts for the instructional material which will be ready and available in early 2025.

Stay tuned for more information!

In this newsletter  
you can expect:

**Key Milestones**

**Final TPM**

**Farewell  
Statement**

# Key Milestones

## National Pilot Workshops Delivered

Partners across Bulgaria, Cyprus, Austria, Greece, and Italy successfully conducted pilot workshops with educators, trainers, and young people. These pilots tested the full Power Up curriculum and gathered valuable feedback to improve the materials.

## Launch of the Power Up Learning Platform

All project content—modules, videos, toolkits, and educator resources—is now freely available in all partner languages via the official platform:

<https://poweruplearning.euresearch.at>

## YouTube Channel Now Live

To support greater reach and accessibility, Power Up's multilingual video content is now available on our official YouTube channel:

<https://www.youtube.com/@PowerUpProject24>

## Project Meetings

The Power Up Consortium had its final TPM on 17-18 July, where the project updates and key management issues were discussed.

## Transnational Training in Larissa (16–20 June 2025)

Hosted by iED in Greece, this 5-day training brought together educators and project partners from across Europe. Participants explored all six modules through hands-on workshops, activities, games, and real-life teaching strategies for working with neurodiverse learners.

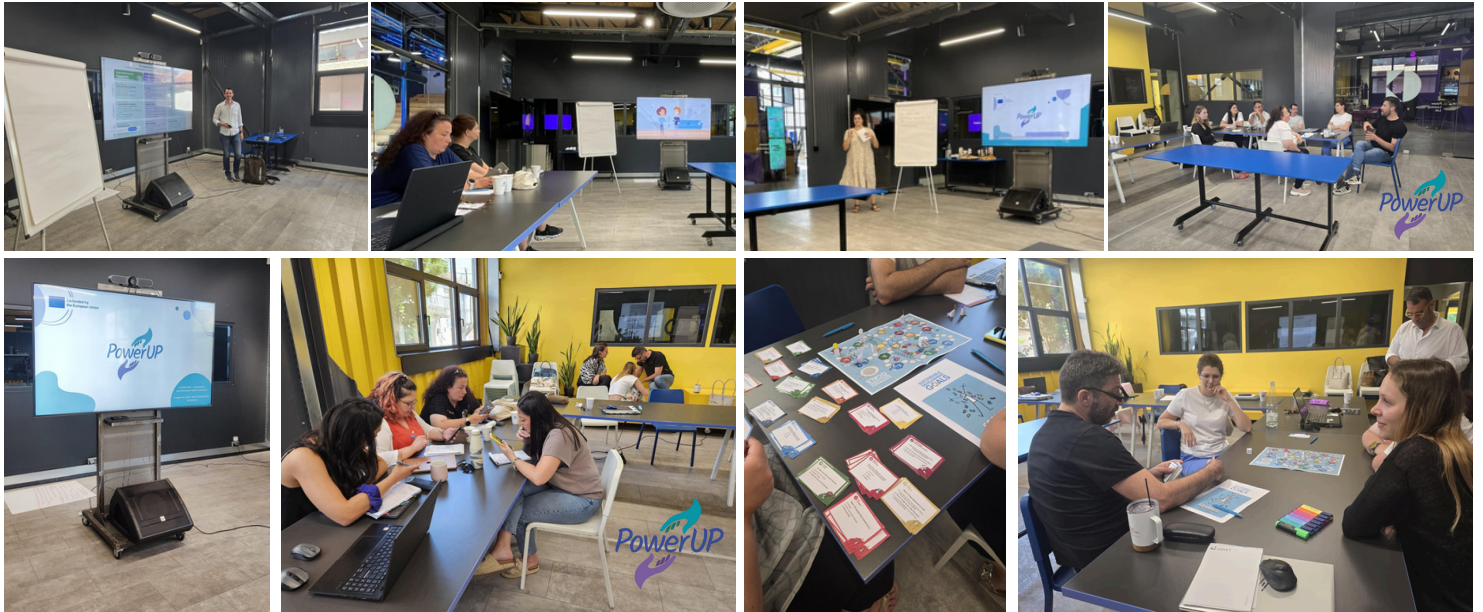

17 - 18 July 2025

## Final TPM

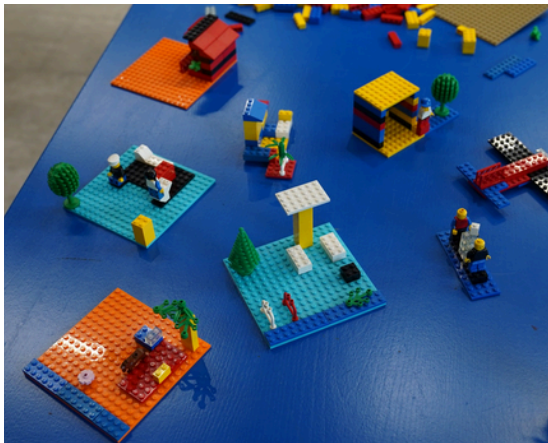

Hosted by VAEV Research and Development Agency, the final partner meeting in Vienna took place on 17-18 July and marked the official wrap-up of the project. Partners reviewed deliverables, shared final feedback from the pilots, and explored opportunities for future collaboration.

# Thank You and Farewell from the PowerUP! Project Team!

As the **PowerUP! Project** draws to a close, we would like to extend our heartfelt thanks to everyone who supported, participated in, and believed in our mission. Over the past two years, we have worked together across borders to develop inclusive, innovative, and practical tools that empower young people with Special Educational Needs (SEN) through entrepreneurship education.

From research and module development to pilot trainings and digital dissemination, the journey has been full of meaningful collaboration, shared learning, and lasting impact. With our **training platform** and **video resources** now live and freely available, we are proud to leave behind a legacy that will continue supporting educators and learners across Europe.

While this project is concluding, the partnerships and ideas it has inspired are just the beginning.

We are committed to continuing our work in the field of inclusive education and look forward to future opportunities for collaboration, growth, and innovation.

Thank you for being part of the Power Up journey.
